Safety and Care Advice

Important - Please read these instructions fully before starting assembly

• Check you have all the components and tools listed on pages 3 and 4.
• Remove all fittings from the plastic bags and separate them into their groups.
• Keep children and animals away from the work area, small parts could choke if swallowed.
• Make sure you have enough space to layout the parts before starting.
• Do not stand or put weight on the product, this could cause damage.
• Assemble the item as close to its final position (in the same room) as possible.
• Assemble on a soft level surface to avoid damaging the unit or your floor.
• Parts of the assembly will be easier with 2 people.
• We do not recommend the use of power drill/drivers for inserting screws, as this could damage the unit. Only use hand screwdrivers.
• Dispose of all packaging carefully and responsibly.

Care and maintenance

| Only clean using a damp cloth and mild detergent, do not use bleach or abrasive cleaners. | From time to time check that there are no loose screws on this unit. | This product should not be discarded with household waste. Take to your local authority waste disposal centre. |

Note: if required the next page can be cut out and used as reference throughout the assembly. Keep this page with these instructions for future reference.
